SOFT SKILLS

- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

TECH SKILLS

- Python (Expert)
- Networking
- DataAnalysis
- Data Structures
- Algorithms
- SQL,PHP, MySQL
- Operating system
- Cryptography

LANGUAGE

- English (Professional)
- Arabic (Fluent)

PROFILE

Driven cybersecurity professional with expertise in network security, penetration testing, and vulnerability assessment. Proficient in Python programming, developing CTF challenges, and performing network scans using tools like Nmap. Passionate about ethical hacking and secure system design, with hands-on experience in identifying and mitigating risks. Eager to contribute to advanced security projects and excel in dynamic, collaborative environments

EDUCATION

Bachelor of Information Technology

School of Science | Lovely professional University

2022 - 2025

GPA: 7.5 / 10.0

AL-Mualim Secondary School

2019 - 2020

High School

GPA: 71.29 / 100.00

PROJECTS

Tutoring Platform Development

JUNE 2024 - OCT 2024

Designed and developed an online tutoring platform to connect students and tutors seamlessly for personalized learning sessions.

Technologies Used: Software dev, Frond-end , Back-end ,Database Database

File sharing System

OCT 2024 - DEC2024

Developed a local file-sharing solution ensuring confidentiality, integrity, and secure transfer of data between systems.

Technologies Used: Socket.io, Node.js, Express, MongoDB, Cryptography

INTERNSHIPS

Cybersecurity Internship:

Gained hands-on experience in network scanning, vulnerability assessment, and penetration testing using industry-standard tools and techniques.

Impact:

Enhanced practical skills in network security and vulnerability management, preparing for roles in penetration testing and ethical hacking.

Tools:

- Nmap
- Metasploitable 2
